SU Gender Activity Bulletin

July-December 2024

SU Gender dates back to 2010 and it has been continuing its work with the status of application and research centre within Sabancı University since 2016, contributing to gender and women's studies in Turkey with its research, training and awareness activities.

Greetings

With this bulletin we present a summary of our research, training and awareness-raising activities in the second half of 2024. The bulletin includes the latest news on the research we have conducted on different scales in gender inequality, gender and migration, ecology, and politics, and on the activities of international project consortiums in which we are involved, and on our dissemination activities. The bulletin also provides information about public talks and seminars we have organized, the Second International Gender Studies in Turkey Conference, and our training and awareness-raising activities in collaboration with our stakeholders within and outside the university. We would like to thank each and every participant and contributor involved in our work.
